This tour acquaints guests with the efforts and successes Laguna Beach experiences as it works to preserve its beautiful coastline, ocean waters and surrounding greenbelt. The tour begins with a guided nature walk in the beautiful Laguna Coast Wilderness Park, where we study flora and fauna and learn how the city and state balance preservation with public demand. From there, it's a visit to a truly unique treasure – Laguna Beach's Pacific Marine Mammal Center, where rescued seals and sea lions are hospitalized and nursed back to health. Then, it's a tide pool tour

to learn about all the many critters of the sea and efforts to preserve their habitat and enhance coastal fisheries.
